

IHEB KHALDI

JUNIOR FULL-STACK WEB DEVELOPER

PERSONAL PROFILE

I am a Full-stack web developer, with 2 years of academic and professional experience working with Javascript technologies. I've mainly worked with ReactJS, NodeJS, SQL and MongoDB, but I have also created a variety of projects in Python, C and Linux.

Meanwhile, I'm looking for a fulltime position preferably working with Javascript or Python. Where I could add value to the team and grow as developer.

In my past academic and professional experiences, I've worked with a variety of people from different backgrounds. I consider myself as a versatile and curious individual.
